SUMMARY

Motivated and detail-oriented Software Development graduate and aspiring IT professional with 3 years of hands-on experience in website development, alongside a strong foundation in application development, technical support, and cybersecurity. Holds an Advanced Diploma in Application Development, a Diploma in Software Development, and a Cisco CyberOps Associate certification. Proven expertise in building web and desktop applications, leveraging cloud technologies, and troubleshooting complex technical issues. Seeking an opportunity to contribute technical proficiency, drive continuous learning, and add measurable value to a forward-thinking organization.

WORK EXPERIENCE

Cloud Administrator (Learner)

July, 2026 – Present

- Configured, deployed, and managed cloud environments, virtual machines, and computing resources to support business applications.
- Monitored on-demand data storage capacity and assisted in setting up long-term archival storage solutions.
- Collaborated with senior engineers, developers, and IT teams to deploy and test new cloud solutions or application updates.
- Performed troubleshooting on network connectivity, storage issues, and operational bottlenecks, rapidly resolving trouble tickets and user alerts.

IT Technician (Parking Equipment)

Mar, 2025 – Mar, 2026

- Installed, configured, and maintained workstations, peripherals, and parking management systems.
- Provided first-line technical support by troubleshooting hardware, software, and network issues to minimize downtime
- Logged and resolved support tickets while delivering efficient and professional IT assistance to staff.

Cybersecurity (Learner)

July, 2024 – October, 2024

- Threat Monitoring & Incident Response: Continuously monitored network and system activity using security tools to detect, analyze, and swiftly respond to potential security anomalies and incidents.
- Escalated critical security alerts to senior engineers and participated in incident containment procedures.
- Supported the IT and development teams in integrating secure coding and deployment practices.
- Supported the onboarding and offloading of users while reviewing access logs to prevent unauthorized privilege escalation.

EDUCATION

Advance Deiploma in IT in Application Development

- **Graduated:** July, 2025
- **Major:** Cloud Development

Diploma in IT in Software Development

- **Graduated:** May, 2024
- **Major:** Applied Programmiing

PROJECTS

- **Bible Vision Map (JavaScript):** Developed an interactive web application using JavaScript to visually map and navigate biblical locations and themes.
- **MS Office Adventure Game (JavaScript):** Created an engaging, gamified JavaScript application designed to teach and test users on Microsoft Office tools and functionalities.
- **Portfolio Website (HTML):** Designed and built a responsive personal portfolio website using HTML to showcase professional skills, background, and technical projects.
- **LezTec LMS (HTML & SQL):** Engineered a web-based Learning Management System utilizing HTML for front-end layouts and Microsoft SQL Server for robust relational database management.

SKILLS

- **Cloud & Infrastructure Management:** Cloud Environments Management, Virtual Machines (VMs) Configuration, Cloud Storage & Backup Operations, Resource Optimization, and Infrastructure Monitoring.
- **Cybersecurity & Threat Monitoring:** Threat Detection & Incident Response, Vulnerability Patching, System Hardening, Log Analysis, Access Control, and Security Compliance
- **Software & Web Development:** JavaScript Programming, C# Programming, HTML/CSS Web Development, Applied Programming, and Full-Stack Project Execution
- **Database Management & Data Handling:** SQL Queries, Microsoft SQL Server Management, Relational Database Design, and Data Structures
- **Systems Support & Troubleshooting:** Technical Support, Helpdesk Support, Hardware & Software Troubleshooting, Network Connectivity Diagnostics, and Parking Management Systems Maintenance
- **Software Integration & Core IT:** API Integration, Azure Services, Linux Basics, and Cross-Functional Collaboration with Engineering Teams
